Dear Parents/Carers,

As a school we really appreciate the feedback and comments received from parents and make every effort to respond to this.

As a result of the feedback received from Parents evenings during the last school year (which can be viewed on our school website), we are implementing a system this year to try and ensure that teacher appointments on Parents evening run to schedule as far as possible.

Appointments over running was one of the main issues raised from Parents evening feedback. Therefore, from now on, all teaching staff will use 5 minute sand timers for appointments in an attempt to ensure that the evening runs to schedule. We hope that you will appreciate the reasons behind this and work with us to improve the efficiency of the evenings for all involved.

Should you need to meet with your child's Head of Year/Head of House, please contact the school office to make arrangements as they can only address subject issues in their teaching capacity during Parents evenings.

Many thanks in advance for your support and cooperation,

Ceri Ellis
